PROFESSIONAL SUMMARY

BS Information Technology student with hands-on freelance experience developing, deploying, and maintaining secure, responsive business websites. Proficient in React, UI/UX design, web security, and performance testing. Seeking a Student Developer position to support web workflows, build maintainable user interfaces, and grow alongside an experienced team.

WORK EXPERIENCE

Independent Web Developer | Self-Employed / Client Projects

R.M. Mendezabal Construction Supplies Trading.

Aug 2026 – Present

<https://www.rmmendezabal.com/>

- Engineered a responsive React.js web application featuring a materials catalog, service showcase, and interactive quote request system.
- Implemented SEO-focused content structure, descriptive metadata, and semantic markup to maximize organic search discovery.
- Enforced HTTPS protocols, safe outbound links, and validated input actions to ensure secure user interactions.
- Provide ongoing monthly maintenance, managing content updates, security monitoring, and UI/UX enhancements.

Flexsol Storage Corp.

Jan 2026 – Present

<https://flexsolstoragecorp.com/>

- Initiated the engagement by designing the company's graphic assets and brand identity, transitioning into web development to build the business platform.
- Implemented strict web security standards including CSP, HSTS, MIME protection, and clickjacking defenses.
- Configured crawlable page structures and performance-optimized media delivery for fast, seamless cross-device browsing.
- Deliver continuous monthly site upkeep, overseeing security patch updates, media asset management, and feature improvements.

TECHNICAL PROJECTS

Personal Developer Portfolio

Ongoing

<https://neo-portfolio-eta.vercel.app/> <https://github.com/kad3nc3>

Tech Stack: React.js, Responsive CSS, HTML5, Vercel

- Designed and deployed a responsive personal portfolio website to showcase production web applications, freelance client work, and UI/UX case studies.
- Built modular React components and an intuitive navigation flow, ensuring fast load times and seamless cross-device responsiveness.
- Configured Vercel deployment with automated continuous integration (CI/CD) and security-focused HTTP headers.
