

NEO JEDRICK BELOLO

ASPIRING FULL-STACK WEB DEVELOPER

Neojedrick@gmail.com +63 920 613 0855 Biñan City, Laguna [linkedin.com/in/neo-jedrick-belolo](https://www.linkedin.com/in/neo-jedrick-belolo)

PROFESSIONAL SUMMARY

Third-year BS Information Technology student specializing in Web and Mobile Applications, with freelance experience building responsive business websites and hands-on practice across React, Python, Flask, responsive UI, SEO-focused content structure, testing, deployment, and web security. Seeking a Student Developer position focused on web development, eager to build clean, maintainable user interfaces, learn from experienced engineering teams, and translate feedback into high-quality web applications.

TECHNICAL SKILLS

Frontend	HTML, CSS, JavaScript, React, Tailwind CSS, responsive design, mobile-first layouts
Backend	Python, Flask, REST API fundamentals, Jinja templates, PHP fundamentals
Tools	Visual Studio Code, Git, GitHub, npm, Vite, MySQL fundamentals, Android Studio
Testing & QA Security	Vitest, Pytest, responsive QA, accessibility checks, keyboard interaction testing Content Security Policy, HSTS, clickjacking protection, MIME-sniffing protection, CORS controls, environment configuration
Performance	WebP asset optimization, Website Mobile Optimized
Programming & Mobile	Java, C++, object-oriented programming fundamentals, Dart, Flutter, Kotlin basics

PROJECT & FREELANCE EXPERIENCE

2026

Freelance Web Developer | Independent Client Projects

R.M. Mendezabal Construction Supplies: Built a responsive, SEO-optimized business website using React and Python, improving content hierarchy and client service visibility.

Flexsol Storage Corp: Developed a multi-page web platform using Flask and Jinja, integrating interactive client contact forms, optimized WebP media delivery, and secure HTTP headers.

Managed end-to-end client delivery, utilizing Git/GitHub for version control, Vercel for continuous deployment, and cross-browser/mobile QA testing.

SELECTED PERSONAL PROJECT

Full-Stack Portfolio neo-portfolio-eta.vercel.app

- Built a responsive React and Tailwind CSS portfolio with reusable sections, mobile navigation, iOS-inspired interface styling, project screenshot lightboxes, and accessible controls.
- Implemented a Flask contact service with server-side validation, generic error responses, request-size handling, environment-only SMTP credentials, and automated tests.
- Added deployment headers, crawler guidance, safe external links, optimized assets, reduced-motion support, and a documented GitHub workflow.

React | Vite | TailwindCSS | FramerMotion | Vitest | Python | Flask | Pytest | Vercel

EDUCATION

FEU Alabang — BS in Information Technology (Web & Mobile Applications)

2023 – Present

Relevant Coursework: Web Development, Database Management, Mobile App Development, Object-Oriented Programming

ACADEMIC FOUNDATIONS

Web & Database

- Responsive HTML and CSS interfaces, PHP fundamentals, MySQL fundamentals, database design, and queries.

Mobile Applications

- Academic mobile application work using Dart and Flutter with interface layouts, navigation, and core functionality.
